The Daily News thinks the American people are evidently weary of their last two years experience, and demand a strong government. The Morning Standard charges the Repub-tican party with the suppression of the free-tom of voting in several States; the endom of voting in several States; the en-franchisement of hundreds of thousands of ignorant blacks, and the disfranchisement of nearly all the Southern people. This state of things, it continues, coupled with the tact that the Radicals held possession of the State governments and had control of the polling booths, with their notorious readiness to abuse their power, made the Democrats fight at a terrible disadvantage; but had the Dem-ecratic party nominated Chase or McClellan, instead of two second rate politicians, it might have succeeded in the election.

The Times holds that though the Democrats are beaten, and the representation in Congress disturbances in Georgia yesterday, except at largely against them, they are yet a powerful Savannah.

The indications are the Democrats have a majority in the State of fully 25,000 and General Grant no one is disposed to regret, as he has fairly won his high rank by hard work and real devotion to his country, and by services which will live long in its remembrance. He is no politician and will take his office with greater freedom than if, instead of the hero of a hundred battles, he had uttered all the shibboleths of the party. NEW POSTAGE STAMPS .- The contract for furnishing the Government with postage stamps for the next four years, has been awarded to the National Bank Note Company of New York. New designs have been adopted for all stamps, as follows: The two cent stamp represents a post boy on a horse running at full speed, illustrating the fact that this stamp is mostly used for dispatch letters. On the three cent stamp there is a finely engraved loco-motive. This is surrounded by lines of lightning, indicating the speed with which letters are carried on which the stamp is used. The five cent stamp has an excellent portrait of Washington. The ten cent stamp has an excellent microscopic copy of the painting of the Signing of the Declaration of Independence, hanging in the Rotunda at Washington. The twelve cent stamp, mostly used for foreign postage, has a picture of a steamer at sea. The thirty cent a steamer at sea. The thirty cent stamp has a copy of a painting of the surrender of Burgoyne, hanging in the Rotunda of the National Capitol. The ink to be used will prevent washing and using the stamp a second time. The fiber in the center of the stamp is broken completely, and they adhere better, while the ink of cancellation sinks into the paper.
